## “LATEST INNOVATIONS”

### InvoSpec OFCI Inhibitors for “Down-Hole” Corrosion Protection

**InvoSpec OFCI-2001** is a hybrid corrosion inhibitor specifically designed for “down-hole” corrosion protection. Specific product attributes include:

- **InvoSpec OFCI-2001** is a powdered inhibitor based on a synergistically designed inorganic/organic chemistry package specifically engineered for “down-hole” corrosion protection.
- **InvoSpec OFCI-2001** has time released solubility that provides corrosion superior corrosion protection for a longer period of time than traditional organic chemistries used for these applications.

Blasted hot rolled steel panels after 168 Hrs. @ 50°C  
in 5% sodium chloride solution.  
Inhibitor loading @ 5%.

Competitor A

InvoSpec OFCI-2001

- The inhibitive chemistry of **OFCI-2001** has a strong affinity for absorption onto metal (steel) surfaces, reinforcing the protective oxide layer, thus providing improved protection in high chloride environments.

- The additional vapor phase inhibiting properties of **InvoSpec OFCI-2001** provides improved corrosion protection at elevated temperatures.

**IMPROVED PERFORMANCE at ELEVATED TEMPERTURE**

**InvoSpec OFCI-2001 @ 50° C**

**InvoSpec OFCI-2001 @ 125° C**

- The naturally high pH and strong buffer capacity properties of **InvoSpec OFCI-2001** improve its protection in sulfide environments.

**CUSTOMER NOTICE:**

Invotec MA LLC provides this information in good faith but makes no representation as to its comprehensiveness. Our products are intended for industrial use only. We cannot foresee how each customer may use the product in connection with its manufacturing and/or sales operation. Therefore, we cannot and do not warrant that the product will produce the results desired or expected by each customer under varying circumstances. It is the ultimate responsibility of each customer to determine the suitability of the product. Therefore, we strongly urge customers to vigorously pursue their own testing program in order to determine the suitability of our product to meet their requirements.
